How We May Use and Disclose Health Information About You

Listed below are examples of the uses and disclosures that Rockford Anxiety & Phobia Clinic may make of your protected health information ("PHI"). These examples are not meant to be exhaustive. Rather, they describe types of uses and disclosures that may be made.

Uses and Disclosures of PHI for Treatment, Payment and Health Care Operations

Treatment. Your PHI may be used and disclosed by your physician, counselor, program staff and others

outside of our program that are involved in your care for the purpose of providing, coordinating, or managing your health care treatment and any related services. This includes coordination or management of your health care with a third party, consultation with other health care providers or referral to another provider for health care treatment. For example, your protected health information may be provided to the state agency that referred you to our program to ensure that you are participating in treatment. In addition, we may disclose your protected health information from time-to-time to another physician or health care provider (e.g., a specialist or laboratory) who, at the request of the program, becomes involved in your care.

Payment. If a situation were to arise which required billing, we would not use your PHI to obtain payment services without your written authorization. Examples of payment-related activities are: making a determination of eligibility or coverage for insurance benefits, processing claims with your insurance company, reviewing services provided to you to determine medical necessity, or undertaking utilization review activities.

Healthcare Operations. We may use or disclose, as needed, your PHI in order to support the business activities of our program including, but not limited to, quality assessment activities, employee review activities, training of students, licensing, and conducting or arranging for other business activities. For example, we may call you by name in the waiting room when it is time to be seen. In some instances, we may need to share your PHI with third parties that perform various business activities (e.g., billing or typing services), provided that we have a written contract with the business that prohibits it from re-disclosing your PHI and requires it to safeguard the privacy of your PHI.

We may contact you to remind you of your appointments or to provide information to you about treatment alternatives or other health-related benefits and services that may be of interest to you.

Other Uses and Disclosures That Do Not Require Your Authorization

Rockford Anxiety and Phobia Clinic

Required by Law. We may use or disclose your PHI to the extent that the use or disclosure is required by law, made in compliance with the law, and limited to the relevant requirements of the law. You will be notified, as required by law, of any such uses or disclosures. Under law, we must make disclosures of your PHI to you upon your request. In addition, we must make disclosures to the Secretary of the Department of Health and Human Services for the purpose of investigating or determining our compliance with the requirements of the Privacy Rule.

Health Oversight. We may disclose PHI to a health oversight agency for activities authorized by law, such as audits, investigations, and inspections. Oversight agencies seeking this information include government agencies and organizations that provide financial assistance to the program (such as third party payors) and peer review organizations performing utilization and quality control. If we disclose PHI to a health oversight agency, we will have an agreement in place that requires the agency to safeguard the privacy of your information.

Medical Emergencies. We may use or disclose your protected health information in a medical emergency situation to medical personnel only. Our staff will try to provide you a copy of this notice as soon as reasonably practicable after the emergency.

Deceased Patients. We may disclose PHI regarding deceased patients for the purpose of determining the cause of death, in connection with laws requiring the collection of death or other vital statistics, or permitting inquiry into the cause of death.

Research. We may disclose PHI to researchers if (a) an Institutional Review Board reviews and approves the research and a waiver to the authorization requirement; (b) the researchers establish protocols to ensure the privacy of your PHI; (c) the researchers agree to maintain the security of your PHI in accordance with applicable laws and regulations; and (d) the researchers agree not to redisclose your protected health information except back to Rockford Anxiety and Phobia Clinic.
